# PEER RESEARCHERS WANTED FOR AI AND DIGITAL SKILLS IN BRENT

WHAT IS THIS?

Rocket Science has been asked by Brent Council to train peer researchers to interview local people about their AI and digital skills.

WHO ARE ROCKET SCIENCE?

Rocket Science is a research organisation which specialises in topics including Employability, Education and Skills, Health, Poverty and Welfare.

WHAT IS PEER RESEARCH?

Peer research is research which is steered and conducted by people with lived experience of the issue being studied.

WHAT WILL THIS INVOLVE?

- Attending a **paid** training session **on 6th August from 10am–4pm at Brent Civic Centre** to learn what peer research is, how to interview people, and co-design research questions.

- Conducting x10 interviews with people in your local area.

- Telling us what you found out. In total, this will take 20 hours of your time (including the training). We would like you to complete your 10 interviews in the **month of August.**

WHAT'S IN IT FOR ME?

1. You will gain valuable research and communication skills and work experience that you can add to your CV.

2. You will be conducting research which will help shape local AI and digital skills training for local people.

3. You will be paid the **equivalent of the London Living Wage (£13.85 per hour) for your time. Expenses will also be covered.**

HOW CAN I GET INVOLVED?

If you want to get involved, please contact Niamh Dunne at niamh.dunne@rocketsciencelab.co.uk or call 01913002585.
Or fill out your details using the QR code below and we will be in touch.
