First Rung Pathways (16-18 year olds)

Changing Lives • Creating Futures

Each pathway programme equips learners with essential skills and knowledge in their chosen vocational area, alongside tailored advice and guidance on career opportunities within the sector.

Learners will benefit from employability support, including CV building and interview preparation, and will have the chance to undertake a work placement, potentially leading to an apprenticeship or employment.

Learners needing support with English or maths will be enrolled on the appropriate course, while all participants will complete the Essential Digital Skills Qualification.

Pathway courses run for up to an academic year, requiring a minimum of 16 hours per week. Enrolment is open throughout the year, with candidates placed on the next available pathways course.

We offer a Pathway course in the following vocational areas:

- Accountancy
- Business
 Administration
- Early Years
- Health and Social Care
